## SKILLS

---

**Languages:** Python, JavaScript, TypeScript, SQL

**Technologies:** Tailwindcss, React.js, Next.js, Node.js, Express.js, Django, Supabase, Sanity, PostgreSQL, MongoDB, Git, Docker

## EXPERIENCE

---

### Global Education Care

Sylhet, Bangladesh

Web Developer

Aug 2024 – Present, Full-time

- Built and maintained a full-stack platform for students to explore programs, apply, and track progress, increasing application completion rates.
- Reduced page load time by 40% by optimizing backend queries and using Cloudinary for media handling.
- Implemented secure authentication with NextAuth.js, maintaining a strong security record with no reported issues.
- Designed an admin panel to manage applications and content, cutting manual workload by 50%.
- Worked with cross-functional teams to ship 5+ major feature updates, improving engagement and operations.

### Freelance Web Developer

Remote

Self-Employed / Contract-Based

2024 – Present

- **ANTGEC – Event Management Platform:** Delivered a production-grade event registration platform using Next.js and Supabase. Integrated Stripe payments, conditional pricing logic, and a user dashboard for 300+ registrants.
- **Job Jatraa – Career Prep Platform:** Built a responsive frontend with Next.js, Tailwind CSS, and Framer Motion. Integrated Sanity CMS for scalable content management by non-technical staff.
- **ANProperty – Real Estate Platform:** Developed a multilingual property listing site using Next.js and Django REST. Implemented property filtering, Cloudinary-based image optimization, and deployed on VPS infrastructure.

## HIGHLIGHTED PROJECTS

---

### Global Education Care – Student Portal | [Live](#)

- Built a platform for 500+ students to explore courses using Next.js and Tailwind CSS, optimized for performance and mobile.
- Implemented secure authentication with NextAuth.js and backend with Express.js and MongoDB.
- Created an admin panel with real-time analytics to manage courses, applications, and content.

*Tech stack: Next.js, Tailwind CSS, Express.js, MongoDB, NextAuth.js, Cloudinary*

### ANTGEC – Event Management Platform | [Live](#)

- Developed a full-stack event registration system for 300+ consultancies with real-time pricing and Stripe payments.
- Built multi-step registration with conditional pricing and discount logic, increasing completion rates by 50%.
- Used Supabase Auth with RLS policies and Framer Motion for smooth UI transitions.

*Tech stack: Next.js, Supabase, Stripe, Tailwind CSS, Framer Motion*

### ANProperty – Real Estate Platform | [Live](#)

- Created a multilingual property listing platform supporting English and Bangla with search and filter features.
- Improved media load times by 40% using Cloudinary; deployed frontend and backend on Hostinger VPS.

*Tech stack: Next.js, Django, Django REST Framework, PostgreSQL, Cloudinary*

## EDUCATION

---

**Shahjalal University of Science and Technology**

Sylhet, Bangladesh

B.Sc. in Genetic Engineering and Technology

Jan 2019 – Mar 2024
